

Point of Sale and Multipurpose Weighing

Viva with Tower Display

Ideal for checkout areas and areas where the display needs to be higher for maximum visibility by the operator or customer.

Scale Mounted Display

The display can also mount on the scale base providing a very low profile when needed.

Square Platter Option

The Viva with square platter is ideal for integrating into checkout counters.

Portion Control

Viva is perfect for manual batching applications, such as controlling the weight of ingredients added to a recipe. A fast and accurate scale ensures consistency every time.

Superior Flexibility and Performance

Viva delivers what you want - complete accuracy along with reliable and durable performance. This scale connects to most point-of-sale systems for checkout applications and to personal computers for many other applications that require weight data.

In addition, many supermarkets are replacing mechanical estimating scales found in fresh self service areas of the store with a more accurate and durable electronic scale. Viva offers several weight units of measure, making it versatile enough for many weighing applications. Whether standing alone or connected to a computer, Viva is an excellent solution for your weighing needs.

Specifications:

Capacity

- 6 kg X .002 kg or 15 lb X .005 lb
- 15 kg X .005 kg or 30 lb X .01 lb
- 240 oz X 0.1 oz

Interfaces

- RS-232
- Protocols included work with most POS systems
- OPOS compatible

Operating Range

- -10°C to 40°C / 14°F to 104°F
- 0 – 85% humidity, non-condensing

Dimensions

- Standard Platter
280 x 316 mm / 11 x 12.4 in
- Optional In-Counter Platter
276 x 327 mm / 10.9 x 12.9 in
- Minimum Height:
55 mm / 2.2 in

Display

- Backlit LCD
- Tower and base mount standard
- Tare and Zero functions
- 4 digits oz, 4 digits lb, 4 digits 6kg, 5 digits 15kg weight

Power
